

Position: Electrical Technician

UltraCell is a global leader in research, development, and production of fuel cell systems for portable power applications. UltraCell was founded in 2002 to commercialize advanced micro fuel cell technology invented by Lawrence Livermore National Laboratory. In 2011, UltraCell became a wholly owned subsidiary of Bren-Tronics, Inc. UltraCell fuel cell systems are compact and light weight. They have undergone extensive Military Specification qualification testing and field trials.

Address: 5637 La Ribera Street, Suite A, Livermore, California 94550

UltraCell has an immediate opening for an electrical technician. The main responsibility of the electrical technician is to assemble and test portable fuel cell systems.
